

Contents

Introduction G. Brancolini, C. Ghezzi & A. Morelli	VII
Cenozoic geodynamics and tectonics	
Shear Velocity Three-Dimensional Model of the Upper Mantle beneath Antarctica Danesi S., A. Morelli & N.M. Pagliuca	1
Metasomatic Processes in Antarctic Lithospheric Mantle (Mt. Melbourne, Victoria Land) Coltorti M., L. Beccaluva, C. Bonadiman, B. Faccini, T. Ntaflos & F. Siena	5
Does Cenozoic Strike-Slip Faulting of the Transantarctic Mountains/Ross Sea Rift Region Extend to the Eastern Margin of the Wilkes Subglacial Basin? Ferraccioli F. & E. Bozzo	9
Tectonic Evolution of the Continental Shelf of Wilkes Land (East Antarctica) De Santis L., B. Brown & G. Brancolini	11
Cenozoic Tectonics in the Rennick Glacier Area (Northern Victoria Land, Antarctica): Implications for the Separation between East and West Antarctica Rossetti F., F. Lisker, A. Läufer, F. Storti & F. Salvini	15
Terra Nova Bay GPS Permanent Station Capra A., S. Gandolfi, F. Mancini, M. Negusini, P. Sarti & L. Vittuari	21
The Antarctic Seismographic Argentinean-Italian Network and Progresses in the Study of Structural Properties and Stress Conditions in the Scotia Sea Region Guidarelli M., M. Russi, M.P. Plasencia Linares & G.F. Panza	25
Seismostratigraphy and Sedimentology of the South Chile Margin: State of the Art and Future Prospects Bartole R., A. Cuppari & D. Morelli	35
Southern Chile Accretionary Wedge: Correlation between the Proto-Deformation Zone and Overpressured Fluids Evidenced by AVO Analysis Loreto M.F., A. Polonia & U. Tinivella	41

Palaeoclimatic records

Pore Pressure Regime and Gas-Phase Distribution in the South Shetland Margin (Antarctica) Accaino F., U. Tinivella & A. Camerlenghi	45
Deep Sea Sediment Consolidation through the Glacial History of the Pacific Margin of the Antarctic Peninsula Volpi V., A. Camerlenghi, C.-D. Hillenbrand, M. Rebesco & R. Ivaldi	51
Morphologic and Seismic Signature of Past Ice Streams on the Continental Shelf of the Pacific Margin of the Antarctic Peninsula (Results of the COHIMAR-SEDANO Cruise on Board BIO Hesperides) Geletti R., A. Camerlenghi, M. Canals, M. Rebesco & E. Domack	57
Piston Cores from the Wilkes Land Rise: Data and Considerations Caburlotto A., P. Macri, D. Damiani, G. Giorgetti, M. Busetti, G. Villa & R.G. Lucchi	63
Evidence of Glacial Processes and Bottom Current Activity on the Wilkes Land Continental Margin (East Antarctica) Donda F., G. Brancolini, L. De Santis, C. Escutia & F. Trincardi	69
Northern Western Basin (Ross Sea, Antarctica): Seismostratigraphic Characteristics and Physical Properties of the Recent Sedimentary Deposits - Preliminary Results Corradi N., G. Fierro, F. Giordano, R. Ivaldi, G. Nicotra & A. Pittà	77
High-Resolution Seismic Mapping of the Holocene Diatomaceous Muddy Drape in the Northern Joides Basin (Ross Sea, Antarctica) Corradi N., F. Giordano, R. Ivaldi, L. Langone & A. Pittà	83
Late Quaternary Palaeoclimatic Evolution of Marine Sediments in the Southern Ocean Project: Preliminary Results of the 2001-2002 Cruise in the Ross Sea Bussi M., E. Colizza, N. Corradi, F. Finocchiaro, G. Fontolan, R. Ivaldi, C. Landucci, G. Nicotra, A. Pittà & G. Salvi	89
Late Quaternary Cold Events Recorded in the Southern Ocean Sediments, Pacific Sector Langone L., L. Capotondi, F. Giglio, P. Focaccia, C. Morigi & M. Ravaioli	95
Reconstruction of Antarctic Ice Shelf Expansion in the Ross Sea from Tomographic Analysis Accaino F., G. Böhm & G. Brancolini	101
Preliminary Results on a Laminated Sediment Core Collected from Cape Hallett Bay (Northern Victoria Land) Finocchiaro F., L. Langone, E. Colizza, M. Busetti, G. Fontolan & F. Giglio	105
Cenozoic Magmas Monitor Climate Change in Northern Victoria Land, Antarctica Dallai L., C. Ghezzi & A. Longinelli	109
Micromorphological Analysis of Glacial Sediments in Antarctica: An Example from the Ricker Hills Tillite Fasano F. & C. Baroni	113

A First Attempt to Classify and Inventory Local or "Alpine" Glaciers in Northern Victoria Land (Antarctica) Diolaiuti G., M.C. Salvatore & C. Smiraglia	117
The ANDRILL Initiative: Stratigraphic Drilling for Climatic and Tectonic History in Antarctica Florindo F., J. Francis, D.M. Harwood, R.H. Levy, T. Naish, F. Niessen, R.D. Powell & G.S. Wilson	123
Antarctic Climate Evolution (ACE) Research Initiatives Florindo F., R.B. Dunbar, M.J. Siegert, R.M. DeConto, P.J. Barrett, A.K. Cooper, C. Escutia, T.R. Janecek, R.D. Larter, T.R. Naish & R.D. Powell	127
Reprocessing and Dissemination of Antarctic Seismic Data Wardell N. & P. Diviacco	133
 Geology of the continent and the margins	
Aeromagnetic Exploration between Yule Bay and Mertz Glacier within the BACKTAM Geophysical Project Bozzo E., F. Ferraccioli & D. Damaske	137
Geomagnetic Depth Sounding Investigations across the Rennick Graben within the Context of the BACKTAM Geophysical Project Armadillo E., E. Bozzo & G. Caneva	139
An Aeromagnetic Survey and a Gravity/GDS Transect over the Admiralty Mountains Region: Field Activities Caneva G., F. Ferraccioli, E. Armadillo, E. Bozzo & P. Armienti	141
Revisiting Tectonic Models for an Early Palaeozoic Subduction System from a Potential Field Perspective over Victoria Land, Antarctica Ferraccioli F., G. Capponi & E. Bozzo	143
Mafic Rocks at the Wilson-Bowers Terrane Transition and within the Bowers Terrane: Implications for a Geodynamic Model of the Ross Orogeny Rocchi S., G. Capponi, L. Crispini, G. Di Vincenzo, C. Ghezzi, M. Meccheri & R. Palmeri . . .	145
The Mertz Shear Zone (George V Land): Implications for Australia/Antarctica Correlations and East Antarctic Craton/Ross Orogen Relationships Talarico F. & G. Kleinschmidt	149
Dating Middle Palaeozoic Magmatism in Northern Victoria Land (Antarctica): State of the Art and Future Plans Fioretti A.M., L.P. Black & D. Visonà	155
Microtextural and Petrological Insight in Shear Zones from the Lanterman Range (NVL, Antarctica): Contrasting Metamorphic Evolution at the Contact between Terranes Capponi G., L. Crispini, G. Di Vincenzo & R. Palmeri	159

Petrology of Migmatitic Granulites from East Antarctica Sandroni S.	163
Surgeon Island Granite: Implications for Regional Geological Evolution of Northern Victoria Land from Structural Observations and SHRIMP Zircon Dating Fioretti A.M., G. Capponi, L.P. Black & D. Visonà	171
Metamorphic Evolution of Robertson Bay Terrane Rocks near the Tucker Glacier: Evidence of an Older Crystalline Basement (Northern Victoria Land, Antarctica) Visonà D.	177
The Role of South Tasman Rise Rocks in Understanding the Geological Structure and Evolution of the Gondwana Supercontinent: Evidence from SHRIMP Zircon Dating of Granites Fioretti A.M. & L.P. Black	183
